Clark Forklift

Clark Forklift Forklift Training - Performing globally, there are at this time 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those in use in North America. Clark has five major lines of forklifts across the world, making it one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, duel fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive makes of lift trucks, with components covering more than 120,000 specialized components for all of its automated equipment. Your local Clark Dealer is your complete source for availability of all your components requirements supplied by Clark Totalift.

Clark features a extraordinary Parts Distribution team. The items warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to offer the highest level of value and service to our users, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Worldwide, Clark has one of the most amazing supplier support networks. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the material handling industry.

Clark proudly remains an innovative leader of the material handling industry, pioneering protection features such as the operator restraint system. This exceptional dedication to safety is at this time a customary feature on every lift truck.

Clark's continual goal to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the world to be certified with the internationally accepted quality standard ISO 9001 for all of their manufacturing plants. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental restrictions, thus placing them in a prevailing market position.

Resource Efficient Manufacturing

Clark has chosen the very economical and beneficial system of "Lean Manufacturing" for its assembly plants and use of resources. This system was established to acknowledge the most efficient method of production plant management and ensuring maximum efficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Engineering

Clark's product engineers and suppliers join together to develop the effectiveness and brilliance of their merchandise while minimizing expenses. The contemporary value engineering agenda combines innovative product growth and delivers superior customer support and service within the industry.
