Ottawa Overhead Crane Ticket

Ottawa Overhead Crane Ticket - The overhead crane is a common heavy equipment used in industrial settings. This machinery is referred to as a bridge crane and comprises parallel runways spanned by a traveling bridge. The component which lifts materials is the hoist. The hoist travels along the bridge.

The overhead crane when utilized for maintenance or manufacturing applications will offer more efficiency than a mobile crane. This particular kind of crane is also commonly utilized in the steel industry. Steel is handled with an overhead crane at each phase of the manufacturing process, from the pouring of the raw materials into the furnace up to the time the finished coils are lifted onto trains and trucks.

Overhead cranes are also commonly used in the automobile business and paper business. The removal of heavy press rolls and other machinery at paper mills is accomplished with bridge cranes. Bridge cranes are utilized to install the heavy cast iron paper drying drums as well as various massive equipment utilized in paper mills.
